Notice of Allowance

This is the Notice of Allowance for application number 10/739,206 Tissue Paper Supporting Assembly filed on 12/19/03. Claims 1, 3-12 and 15-21 are allowed.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

In claims 1, line 7 after "rear edge" and before, ", said legs", each of said legs being fixedly secured relative to said panel has been inserted.

In claim 15, line 8 after "rear edge" and before, ", said legs", each of said legs being fixedly secured relative to said panel has been inserted.

In claim 18, line 7 after "rear edge" and before, ", said legs", each of said legs being fixedly secured relative to said panel has been inserted.

Authorization for this examiner's amendment was given in a telephone interview with Sean Kaufhold on 3/2/06.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach that the legs are fixedly secured relative to the panel, the term fixedly secured meaning rigid and non-pivoting or non-rotatable. The reference to Berlin teaches that the legs (42, 44) are pivotally attached to the panel (46) so that the panel may fold. The prior art of record does not teach the fixed legs being in combination with a panel having forward and a rear edge and a pair of lateral side edges, with the legs attached to and extending upward from the rear edge the panel adjacent the side edges, the legs being spaced from each other and the each of the legs being positioned in a plane oriented substantially perpendicular to the plane of the panel, a brace being attached to and extending between the legs, a bracket being attached to the legs and extending over the panel such that the plane of the bracket is oriented substantially parallel to the plane of the panel, a coupler being attached to an upper end of the legs. The prior art also does not teach the method of providing such a device.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
